BAD FOR MACKIN.

Sullivan Confesses that He Got Four Dollars for His Testimony.

Circano, Feb. 17.-To-day's developments in the election conspiracy trial are sensational in the extreme. J. J. Sallivan, the printer who testified on Saturday last that he printed on the day before election the bogus Republican tickets found in the ballotbox, and who was arrested yesterday charged with perjury, made a complete confession this afternoon. He acknowledged to the court that he did not print the tickets; that the whole matter was cooked up between most and the chief defendant, Mackin; al that Mackin gave him four dollars and the promise of a position in the government belating office at Washington for falsely testifying. Three other witnesses for the defense, Gilmore, O'Brien and Titman, whose evidence support d Sallivan's perjary testanouy, were also arrested this afternoon. Warrants are also out for the arrest of several witness who swore they saw the bogus tickets pestiled at the polls. Gleason and Build, two of the defendants, were on the stand to-day regarding the disposition and safe keeping of the ballots. The evidence was contradictory.

THE GREATEST SINCE '69.

Lower Canada Visited by the Great Snow-Storm King.

AL, Feb. 17.—The greatest storm since 1869 is raging throughout this section of Canada. In that year we were four days without mail from Toronto and six days without one from Ottawa. St. Henri, St. Ganegondi, St. Gabriel and, according to information, other ontlying country districts are completely snowed up and traffic, whether vehicular or pedestrian, is impossible. At St. Gunegondi snow i piled up in forms of colossal pyramids about twenty-five feet high and 200 feet in circumference effectually barring all progress in this direction. In some places drifts com-pletely covered small stores, of which the dread ully creaking signs alone remain visible.

The Worst for Years.

RUTLAND, Vt., Feb. 17 .- The severest snow and wind storm known for many years has prevailed throughout this section since yesterday. From two to three feet of snow has fallen in the territory between Rutland and Cornecticut river, and at points south of here to Albany and Pittsfield. A regular blizzard has set in and railronds leading south, east and west are blocked up with snow, which in many places is higher than tops of the cars. Travel by teams in the country is abandoned, many public highways being impassable. The Central Vermont, between here and Bellows Falls, Bennington and Rutland, and the Delaware & Hudson railroads an blocked several palse gir rains will be abandoned this morning. Three engines brought in a train of two cars.

Blizzards at Buffalo.

BUFFALO, Feb. 17 .- The late fall of snow, together with the piercing blasts which blew across the country yesterday, last night and this morning, has well nigh paralyzed the railroads in this vicinity. The "Nickel Plate" road is making good time, but all the other roads experience more or less trouble. The Michigan Central, New York Central and Eric trains are from five to seven hours behind time. The thermometer registered 80 below zero early this morning.

In the Green Mountain State.

Burnington, Vt., Feb. 17.-All trains on the Burlington & Lamoille road were discontinued last night on account of the storm. All Central Vermont trains are from thirty minutes to two hours late. To-day all trains are discontinued, save locals between this town and Rutland, and St. Albans,

THE NAVY BILL.

The Report of the Appropriations Committee in the House.

WASHINGTON, Feb. 17 .- The Navy bill was to day reported to the House by the Appropriations Committee. It appropriates \$13,-515.837. The estimates amounted to \$20,-654,050. The bill appropriates \$400,000 for the completion of the "New York." It provides for actual building of a navy and not merely the selection of the plans. It first to the collection all possible information on the subject of naval construction; second, to the selection of plans, and lastly to the building of the navy according to those plans without any further action by Congress. All necessary money to pay expenses of the Board, its awards and purchases and building of the vessels provided for is appropriated out of the money in the treasury "not otherwise appropriated."

The idea in providing for a commission of civilians in conjunction with the President and Secretary of the Navy to select plans and build the navy is understood to be to take the matter entirely out of the bands of the present navy management and place it in navy according to those plans without any

the present navy management and place it in those of the new administration. There is but one other paragraph of new legislation in the bill, and that makes an appropriation of \$80,000 for completing and testing two breech-loading rifle cannon of the largest caliber now in course of construction.

It is given out that no announcement of cabinet select-ions will be made this week, as arrange-ments are not yet perfected. THE PAGEANT OF REX.

TWENTY TABLEAU CARS IN LINE

The Monarch as King of Industries-Scott's "Ivanhoe" With Magnificient Scenic Effects.

NEW ORLEANS, Feb. 17 .- Rex chose for his subject to-day Scott's romance, "Ivanhoe." The pageant this afternoon showed that Rex not only read the immortal work closely. but was a student of the history of the epoch in which the romance is laid. The monarch came as king of industries. There were twenty gorgeously decked tableau cars, emblematical of the principal scenes and incidents of "Ivanhoe." The procession, in its entirely, was one of the finest ever given by Rex, whose day parades are more critically examined than those of his brother monarchs. The broad glare of day not permitting the use of flimsy material. Following Rex came burlesque representatives by some of the minor mystic socieies who were in turn followed by the promiscuous maskers. To-night occurred the annual pageant of Krewe Momus. One hundred thousand people, one third of whom were strangers, lined the streets. Krewe selected fragile material out of which, however, he built solidly. Momus is nothing if not classical, but the former pageants convinced him that popular subjects are most successful. Mythology, history and the arts and sciences have been beautifully presented in former years, but scenes of fairy-land produce the best and most lasting impression. His departure from time-honored canopies and colonades, was welcomed by those used to carnival pageants to whom they have become somewhat monotonous. The scenic effects in all the tableaux, eighteen in number, were superb, clouds seeming to float in the air. and the Crescent moon to be suspended without support. Tableaux of colossal grasses and flowers, novel, graceful and picturesque, while grottoes, caves, pearly gates, water effects, etc., were the finest ever seen here. The God of Mirth selected for his subject this year the legends beautiful: "Sweet is the love which nature brings,

Our meddling intellect
Misshapes the beautious forms of things;
We murder to dissect.

Enough of sciences and of art; Close up these barr in leaves; Come forth and bring with you a heart, That watches and receives."

He Says He Will Not Abide by the Court's Decision.

San Francisco, Cal. Feb. 17 .- When ex-Senator Sharon heard of the decision against him in the Aggie Hill case, he expressed himself very vigorously and said although the money had been awarded it had not yet been paid. The case would be taken at once before the Supreme Court, he said, which would stop all proceedings until settled there. Whth a grim smile the ex-Senator said, "Judge Sullivan evidently rated Althen's value a great deal higher than she did herself. When she and I had to fix her value, she rated it at \$500 a month, but the court seems to be of the opinion that five times as much would be about the right thing. I shall neither pay promptly, nor shall I pay at all. There can be no compromise. My honor and the honor of my children are at stake. I would not purchase peace at any price. I will win peace from the decision of the courts. Proceed-ings for an appeal will be taken immediate-ly."

A Medical Measure.

DETROIT. Feb. 17 .- A number of leading homeopathic and allopathic doctors met at the Detroit Medical College last night and discussed a bill to regulate the practice of medicine in this State which will be presented to the Legislature. There were an audience, he asserts that the friendly relations at present existing between England and the vatican would be jeopardized by granting Mr. Davitt's request. The Pope adds: "While the church is free to get for herself, she does not want to appear ungrateful for any favors shown her, and I therefore think it unwise to accept the address which Mr. Davitt seeks to present, as the British government may construe it into an unfriendly act."
